

HOW TO ENJOY SALVATION

If you still do not have the helmet of salvation, that should be the first thing you set about to obtain, if you have any sense at all. Paul says that the man without God is without hope. If God, who is light, is not in your understanding you are blind. If God is not in your conscience, you must be a raging devil, or a stupid atheist. Yet it is far worse to be without this hope when death comes.

Are you cutting your short life into bits by wasting time on trivia when your salvation still has not been worked out? Are you pampering and decorating your body while your soul is slipping into hell? This is like painting your door when the house is on fire. But you have many specific promises from God's faithful word, that if you seek him, in his time and way, as surely as God is in heaven to-day, you will live there with Him in glory.
