

## **HOW TO NOT FEAR DEATH**

**Why should you be afraid to die when you hope to live by dying? Is the runner afraid of coming to his goal too soon? Does an engaged person grieve as his wedding day approaches? Death is all this and more to you. When it comes, your jubilee comes. You are free. Your race is run, and the crown won. God will place it on your head as soon as the soul goes out of your body.**

**You do not love the Lord much if you are not willing to leave the place where you are, and enjoy His presence in His Father's royal palace of heaven. Preparation has been made for you that you cannot know here. All fear of death betrays strong unbelief, and little hope. When we do not look upon death as we should, we are startled by it. Faith can see through it and assure us of good. Christian if you can understand what message death brings, the fear of it will be over.**
