

## **WHERE IS GOD**

**God dwells in His creation and is everywhere indivisibly present in all His works. This is boldly taught by prophet and apostle and is accepted by Christian theology generally. That is, it appears in the books but for some reason it has not sunk into the average Christian's heart, so as to become part of his believing self. Christian teachers shy away from its full implications and if they mention it at all, mute it down till it has little meaning. Wherever we are, God is here. There's no place, there can be no place, where He is not. These are truths believed by every instructed Christian. It remains for us to think on them, and pray over them until they begin to glow within us. AWT**
